More polytechnic graduates entering local universities

Q: My daughter is a polytechnic graduate in business, but she is interested in robotics, which is a very popular field. I am worried she will not be able to get a place in the local universities. Is there a quota on university places for polytechnic graduates?

Past:

- 70% of JC students go to local universities
- 20% of polytechnic graduates go to local universities

There is no quota on the number of places given to polytechnic graduates.

Present:

- In 2020, **30% (1 in 3** students) of polytechnic graduates made it to local universities

Should my child go to Junior College or Polytechnic?

POLYTECHNIC	JUNIOR COLLEGE
I am passionate about a specific area related to my career aspiration	I prefer to dive deep into a specific content area . My course of study opens more options for me at the university level.
I prefer applied learning where there is direct relevance between what I study and my work.	I prefer learning that is more conceptual.
I would like to be work ready when I graduate with a diploma.	I would like to graduate with an 'A' Level certificate that prepares me for university.
I enjoy working on projects with different people.	I prefer to stay and learn with the same group of people.
I prefer freedom to decide how to plan and use my time. I prefer to be self-directed.	I prefer a structured timetable . I prefer the regiment and routine in a school setting.

Introduction

The Polytechnic Early Admissions Exercise (Poly EAE) is an aptitude-based admissions exercise that allows students to apply for and receive conditional offers for admission to polytechnics prior to receiving their final grades. It allows the polytechnics greater flexibility to select and admit students based on their aptitudes and interests, apart from academic grades, thus allowing a wider range of talents to be recognised.

Poly EAE is open to graduating O-Level students, final-year *Nitec* and *Higher Nitec* students from the Institute of Technical Education and Adults (Singapore Citizen or Permanent Residents only) who have two or more years of relevant work experience.

All five polytechnics participate in Poly EAE:

- · Nanyang Polytechnic
- Ngee Ann Polytechnic
- · Republic Polytechnic
- · Singapore Polytechnic
- Temasek Polytechnic

Application begins in June
